THESE Machines are now very justly considered to be the best in use, having the advantage of all others in the simplicity of the construction, the speed and beauty of their work, and the great strongth of their seam. Unlike any others in use, they form a seam with two continuous threads from ordinary speeds of cotton, slike or lines—making a know at every stuch which prevents how work from ripping uncertaintenances whatever.

The first and highest premiums have been awarded to those Machines at sell the leading Pairs throughout this country and Europe, and the inventor now rejutes in the more substantial reward of the inguest patronage over bestowed upon any Sewing Machine in intrope or America.

They are of the highest finish, and of every variety of size and style, and adapted to all the wants of the Sewing community. and style, and adapted to all the wants of the Sewing com-munity.

They are all eccured exclusively to the proprietors by lot-ters patent, and are free from all legal controversy. Breat pains has been taken to adapt these Machines to Plantation sewing, and they are now so ample, durable and easily run and tended by any person, that they are entirely beyond competition for this work or for the manufacture of heavy or light bags, for Corn or Wheat, no machinery has ever been invented to surpluss them—any person after one hours practice can make from 400 to 700 corn sacks per day on one machine. These machines are also equally well adapted to the manufacture of all kinds of clothing, coarse or fire, as well as general sewing, quilting, stitching, der. These ma-nines are so arranged as to make the stitch any length de-dired, and to sew with case any and every seam to any gar-ment, and the durability, regularity and benaty of firth, cannot be equaled by any work accomplished by the most skillful hands.
